

Terror to Americans: Parts 1 & 2

With the senseless slaughter of California Officer Singh, this illegal immigration battle is now front and center as never before. And it MUST be resolved! Americans who are in this country legally — either by birth, legal emigration, or through obtaining legal status in other ways — now demand our government take any and whatever steps are necessary to “defend, maintain, and protect all American citizens.”

But so far, our government has let us down. It's not just the government: all those who promised to report the details of everything via the national, state, and local news reporting have let us down, too. Think about this: if there was a para-military organization, an organized criminal gang working nationally, or an identified foreign government spy operation that was being allowed to instigate, structure, and freely operate criminally in the United States, the media would be all over those operations and whoever in government was responsible to rid the nation of them. Imagine the pictures of slaughtered Americans we'd see daily in the nightly national news broadcast and each morning in newspapers.

That IS happening and is happening NOW. Those two entities -- the federal government and the national news media -- are quietly standing on the sidelines letting foreign criminals tear out country apart. American citizens by the thousands are being raped, murdered, vandalized, all watching as billions of their tax dollars are swallowed up by our government spending it on the care and compensation caring for whatever those criminals need. And the media is not just standing on the sidelines remaining silent for these travesties. Instead of exposing it and those who prop it up, they gloss over not the criminal acts, but the fact that those who commit those acts are criminals. Oh, they'll tell us about a murder, a rape, a drug deal gone bad. But seldom do we hear the names or see the faces of the victims or how those crimes have destroyed the lives of the victims and their families. But no more!

Today we give you Chapter One of what is really an expose'. We will not be simply quoting numbers. We are going to show you faces and bullet point details of some of the actual travesties and crimes committed by illegals against Americans in the past few years.

Our purpose? Outrage! We are taking on our government officials and leaders in the media to start this new year. Something MUST be done!

You will see faces and read and hear facts that will shock you: not only to hear the facts but because you have not seen or heard them before. At the end of these two days, we will give you the manuscript of both in .pdf format to download to share. Of course, you can download the podcast each day by simply clicking on it. We want you to share both with everyone you know by forwarding the .pdf and the podcasts for today and tomorrow. Or you can simply forward the link to today's and tomorrow's stories.

Let's get started!

The Stories

The following crime information is gathered from various news sources and refers to crimes other than terrorism. The criminal aliens mentioned are all identified as being in the country illegally. Many of them had come into the hands of law enforcement agencies prior to the crime that is described and were not deported or in some cases, deported but reentered the country.

- On May 6th, 2017 on the way back from Disneyland, Ingrid Lake's car was struck by a drunk driver. The accident severely injured her 6-year-old son Lennox. The driver of the vehicle Constantino Banda Acosta was previously deported over 15 times before the accident. This has forever altered the Lake family.
- On April 27, 2002, Ronald da Silva was standing with a friend in his driveway when he was shot and killed by an illegal alien who had been previously deported. The illegal alien was sentenced to 21 years in prison but will be released in 2020. Ronald da Silva's mother, Agnes Gibboney, has made a powerful statement, "The guy that killed my son has a determinate sentence in prison but I have a lifetime sentence of grief and pain." Since the tragedy occurred, Agnes has been on the front line pushing for immigration reform.
- Tessa Tranchant, 16, was killed on March 30, 2007, in Virginia Beach, Virginia. Tessa and her friend, Ali Kunhardt, were sitting at a stoplight when Alfredo Ramos, an illegal alien from Mexico who was intoxicated and speeding, rear-ended their car. Ramos had a history of prior convictions, but due to Virginia Beach's sanctuary policies, he was never detained. He was charged with two counts of involuntary manslaughter and sentenced to 40 years in prison.
- Sarah Root, 21, from Omaha, Nebraska was killed on January 31, 2016. Her SUV was rear-ended by Eswin Mejia, an illegal alien from Honduras, who was street racing. Sarah had just graduated from Bellevue University with a 4.0 GPA the day before she passed away. Omaha is in Douglas County, Nebraska which has sanctuary policies that impede local law enforcement's ability to cooperate with ICE officers. Mejia was charged with motor vehicular homicide but posted a bond to get out of jail and was released. He is still on the run.
- Igor Zubko, an illegal alien from Russia, killed Shayley on July 24, 2015, in Phoenix, Arizona. Shayley obtained an order of protection against Zubko just 10 days before her murder, but he entered her home and fatally shot her. Zubko entered the U.S. legally, but overstayed his visa and remained in the U.S. illegally. He is in police custody and faces first-degree murder charges.
- Roberto Galo, an unlicensed driver from Honduras who entered the U.S. illegally but earned temporary protective status (TPS), killed Drew Rosenberg, a second-year law student, on November 16, 2010, in San Francisco, California. Rosenberg was riding his motorcycle when Galo ran over him three times with his car. Galo was convicted of vehicular manslaughter and sentenced to 6 months in jail. USCIS refused to deport him and he was released after serving only 43 days. Thanks to the Rosenberg family's activism, Galo was finally deported on April 4, 2013.
- Apolinar Altamirano, an illegal alien from Mexico, murdered Grant Ronnebeck on January 22, 2015, in Mesa, Arizona. Ronnebeck was shot over a pack of cigarettes while he was working his shift at a convenience store. Altamirano was out on bond from a previous conviction while ICE determined whether he should be deported when he killed Ronnebeck.

Illegal Crime Statistics: Who is Right?

Wanna shock yourself: Google "Illegal Immigrant Crime Statistics." You will see multiple stories from papers like the *Washington Post* and the *New York Times* that are written and published to debunk crime statistics given that show illegals commit more crimes than legal Americans and legal immigrants.

The pro-illegal immigrant lobby consistently misrepresents the criminal involvement of illegal immigrants as compared to immigrants who legally enter the U.S. and American citizens, saying that illegal immigrants commit fewer crimes than their counterparts. This assertion is false in most cases. Here are the vetted statistics:

In California, there are just over 92 illegal immigrants imprisoned for every 100,000 illegals as compared to 74 citizens and legal non-citizen immigrants. In Arizona, the rate is nearly 69 illegals imprisoned for every 100,000, as compared to 54 citizens and legal non-citizen immigrants.

In New York, over three times as many illegal immigrants or 169, are imprisoned for crimes per 100,000, as compared to only 48 citizens and legal non-citizen immigrants. Only the states of Texas and Florida do illegal immigrants commit fewer crimes than their legal immigrant counterparts (Texas with 54.5 illegals imprisoned per 100,000, compared to 65 legal immigrants and Florida with 55 illegals imprisoned, compared to 68 legal immigrants).

Texas is an epicenter for illegal immigrant crimes

Recent crime analysis by both the Department of Homeland Security (DHS) and Texas law enforcement authorities indicate that between June 2011 and March 2017, over 217,000 criminal immigrants were arrested and booked into Texas jails.

In researching the criminal careers of these defendants, it was revealed that they had jointly committed over nearly 600,000 criminal offenses. Their arrests included nearly 1,200 homicides; almost 69,000 assaults; 16,854 burglaries; 700 kidnappings; nearly 6,200 sexual assaults; 69,000 drug offenses; 8,700 weapons violations; over 3,800 robberies and over 45,000 obstructing police charges. In determining the status of these offenders in the U.S., it was confirmed by DHS that over 173,000 or 66 percent of these immigrant criminal defendants were in our country illegally at the times of their arrests.

Summary

These above are just a few of the stories and pictures from horrors perpetrated by illegals in 2016. To be honest, it is impossible to paint a thorough picture of the horrors these criminals perpetrated on their victims. In addition to these victims pictured and mentioned here are tens of thousands of others whose lives have been ruined: little girls targets of rape and child trafficking; family members have had lives permanently altered; the loved ones of those brutally murdered will live for eternity without those they loved. And for what?

We've just scratched the surface. Tomorrow we will picture and capsule the stories of more victims. "Why are you including pictures?" you may ask. It's simple: to make a lasting impression. You see, that's a trick of the Leftist media. They have discovered if they even reported some of these stories, if they do NOT include pictures of perpetrators or victims, the impact on the public is tremendously diminished. The shock is significantly less. All of the victims at the hands of illegals deserve for Americans to "know" who they are and "see" who they were. That also applies to the criminals who changed the lives of these thousands of Americans and their family members for life.

Then tomorrow, we will send a message to those in our nation -- our government -- who are directly responsible for these crimes being allowed to occur. We will challenge them to take obvious and simple actions to end this human tragedy. Please look and listen in to Part 2 of this epic blight on the canvas of American history.

(Part 2)

In Part 1 of this story, we made it very clear that the gloves are off at TruthNewsNetwork: the illegal immigration debacle is out of hand. Americans are sick and tired of our borders being overrun, our citizens being maimed, raped, robbed, kidnapped, and sold into trafficking operations, and even murdered by illegals. We revealed the facts via non-partisan immigration statistics that show that illegals in our country disproportionately make up those who commit such crimes, dispelling immigration pundit stories which maintain that illegals do not commit as many crimes as do legal Americans. (In presenting that statistic that reported over and over by the Mainstream Media, they fail to mention their quoted stats include the millions of "LEGAL" immigrants who have been vetted, entered and successfully completed the U.S. immigration process)

Additionally, we gave you specific examples of the crimes committed over the past few years by illegals, the names of the offenders and their targets, and even pictures of some of each. It is time for Americans to awaken, digest the facts of illegals flooding into the country through our southern borders, and costing taxpayers billions of dollars every year as they devour our financial infrastructure. AND THEY DO SO BREAKING THE LAW!

We will complete this journey today with some more stories and pictures of Americans whose lives have been changed forever and of their attackers. Those Americans would be living the American dream today if our southern border was protected to prevent illegal migration, which is the law.

Further, we will discuss exactly what steps must be taken and by whom to take back our nation's sovereignty. It can be done. It must be done.

Meet some innocent Americans:

Here is a picture of Officer Ronil Singh -- a legal immigrant who served on the Newman, California, police force that was murdered by an illegal -- and his wife Anamika and young son. Officer Singh did it the RIGHT way. He went through the legal process of coming to the U.S. He then went through the immigration process to obtain U.S. citizenship. He wanted to become an American police officer and went through all the training to be the best possible police officer he could be while being a good husband and father. Singh was born in Fiji and had been working for the Newman Police Department since 2011.

He was worried about his language difficulty with English. He wanted to be able to communicate freely with the citizens of Newman, California, who he wanted to serve and protect. To facilitate that commitment, he took English classes to be able to communicate well.

Christmas 2018 changed the lives of his wife and son for eternity when an illegal who had a record that included several DWI's and deportations was stopped by Office Singh on a routine traffic matter. His life was snuffed and his family's lives ruined in an instant.

A Note to Nancy Pelosi and Chuck Schumer

"Ms. Speaker and Mr. Minority Leader: how many is an O.K. number of Americans to be murdered, seriously wounded, paralyzed, raped, or just terrorized by illegals here in the U.S. because of the failure of Congressional Democrats to stop illegals from entering the U.S.? When will Democrats stop playing politics and bowing to left-wing donors and socialist politicians who want open-borders? When will you both cease your rhetoric and ridiculous claims that border walls do not work in ANY country that has them? Americans know that such walls on the borders of more than 100 countries around the world are amazingly successful at stopping illegal entry. When will you allow Congress to pass meaningful immigration laws without holding border security hostage for the legalization of DACA recipients? When will you two start honoring your personal oaths made to support the U.S. Constitution and the laws of the United States?"

I shudder to think that you, Ms. Pelosi or you Mr. Schumer, would not take any and all actions necessary for the establishment of new immigration laws to solve this problem. Or, in the event that current immigration laws are sufficient as-is to do the job, would NOT provide all necessary infrastructure through your powers over the U.S. purse as House Speaker to support immigration law enforcement to ensure the swift and legal prosecution of ALL those who illegally find themselves in the U.S. These financial measures need to include budget sufficient for adjudication of the 700,000 cases back-logged asylum cases, 90% of which are bogus.

Please, Ms. Speaker, consider if youngest daughter, Alexandra, her sisters Nancy Corinne, Christine, Jacqueline, or their brother Paul or any of THEIR children -- your grandchildren - - or, Mr. Schumer, your young grandson Noah Melvin would sustain personal attacks of any sort at the hands of illegals who you chose NOT to prosecute for their crimes and allowed them to walk free among your family members. How can you even look at those children and grandchildren who I am certain you love dearly, without thinking of the children and grandchildren of other Americans who have been kidnapped for human trafficking or killed by those whom your actions have allowed escape prosecution and deportation?"

I do not speak for all Americans, but I speak for most when I say that IF we really live in the greatest country in World history, and IF we really are a nation of laws in which all are protected from those who choose to ignore laws, and IF we really honor the foundation of the United States and its founding documents, it is time for those who work FOR us -- members of the United States Congress -- to start honoring the obligation to work FOR those who elected them.

Ms. Pelosi and Mr. Schumer: lead your party in doing the right thing even when that is not the Democrat Party desire. It's NEVER right to NOT obey the law. It's NEVER right to not support enforcement of the law.

And if you don't like the laws -- CHANGE THE LAWS...LEGALLY!

Otherwise, please step aside to allow those who really are American and who really want to lead others in abiding by U.S. laws to take your seat at the Table of Government.

You owe us all that. You owe America that much!"
